BID BULLETIN NO. 1

This Bid Bulletin is issued to amend/clarify items in the Bidding Documents for the **SUPPLY AND DELIVERY OF CUSTOMIZED LAPTOPS FOR POWER USERS (2ND REBIDDING), COMPETITIVE BIDDING NO. 2025-035**.

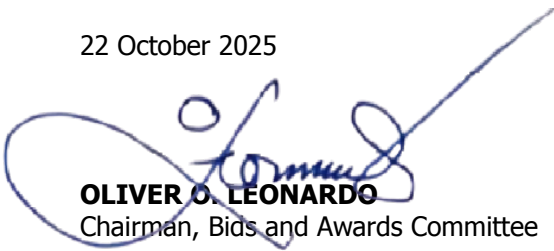

A. CLARIFICATIONS

Requirements	Bidder's Clarification	Response
Tamper lock capability	Include in the technical specification "Tamper lock" To ensure that the machine has a protection mechanism against any kind of physical attacks by detecting and locking down a system to prevent unauthorized physical intrusion of the devices. It should have capabilities of blocking system boot at the BIOS level until valid BIOS administrator credentials are entered; clearing the TPM to delete all user keys, provides intrusion events and history, and the ability to power-off the system immediately when an intrusion is detected.	The requirement is retained.
Sure Admin	Include in the technical specification "Sure Admin" To ensure that the BIOS of the machine should have the capability to use digital certificates and public-key cryptography to securely manage BIOS settings by using non-intrusive password-less remote and local management.	The requirement is retained.

Anti-virus	How many endpoints are currently in use? What is the projected total number of endpoints in the next 2 to 3 years? Do you already have a Fortigate device? If yes, please specify the model and firmware version. What type of deployment is needed for the endpoints — Cloud-based or On-premises?	950 user licenses More than 1,000 Yes, FG 601 v7.4 On-premises
------------	---	--

Provisions in the bidding documents that are in conflict with this Bulletin are deemed revised/amended. For guidance and information of all concerned.

22 October 2025
