

NOTICE

**Subject : Temporary Use of 2020 Form for Urgent Filing
of General Information Sheet on eFAST**

For urgent filings, corporations that are still in the process of setting up or restoring access to their eSECURE accounts, which provide entry to the Hierarchical and Applicable Relations and Beneficial Ownership Registry (HARBOR), may proceed with the submission of their General Information Sheet (GIS) through the Electronic Filing and Submission Tool (eFAST) using the 2020 version of the GIS form.

The 2020 Version of the GIS Form may be downloaded from the SEC website at <https://bit.ly/2020GISForms>.

The Commission is temporarily allowing the use of the 2020 GIS Forms to enable corporations to comply with their reportorial requirements while completing the necessary setup or access arrangements for HARBOR, the Commission's online system dedicated to the filing of beneficial ownership information.

This transitional arrangement will be available until 15 April 2026.

After 15 April 2026, the Commission will require the use of the 2026 Version of the GIS Form, which incorporates the updated reporting framework. Under this version, corporations will submit their beneficial ownership declaration through HARBOR, as part of the Commission's integrated reporting process.

For concerns relating to eSECURE account access, HARBOR, or eFAST, the public may visit the SEC Headquarters in Makati City or the nearest SEC Extension Office. The Commission's Information and Communications Technology Department and Enforcement and Investor Protection Department are available to assist at the SEC Public Assistance and Complaints Desk.

Issued on 10 March 2026.
